# TOUCH<sup>™</sup> TD1100

## GENERAL PURPOSE CORDED HANDHELD CONTACT LINEAR IMAGER BAR CODE READER

The Touch<sup>™</sup> TD1100 series of linear imaging contact readers represent the Datalogic ADC solution for customers who require a cost-effective solution for close contact bar code reading without sacrificing quality and performance.

Designed for low throughput applications within multiple markets, the Touch TD1100 readers provide the guarantee of contact reading with an excellent reading performance on virtually all linear bar codes, including damaged or poorly printed codes.

Small, lightweight and low on energy consumption, the Touch TD1100 readers continue to provide robustness and a 1.5 m / 5.0 ft drop resistance, which is typically included in a higher range of products.

The Touch readers are available with the option of two different sizes of reading windows: 6.5 cm / 2.6 in (Touch 65) or 9.0 cm / 3.5 in (Touch 90), which benefits the user when reading standard or wide bar codes.

The Touch TD1100 65/90 Pro readers provide a complete all-inone multi-interface solution, including RS-232, USB, Keyboard Wedge and Wand Emulation, while the Touch 65/90 Lite readers provide USB or RS-232/Keyboard Wedge interfaces. An innovative 'read-thru' holder provides the Touch TD1100 readers with hands-free reading capability on documents or small items.

Datalogic's Aladdin<sup>™</sup> configuration software provides user-friendly features that simplify the start-up procedure, even for inexperienced users.

The Touch series is available in a black model only, however, additional custom color options are available for a minimum order quantity.
