

## TSP700II

## **Be Struck By Its Power**

50% Faster Speed, Higher Print Resolution for Graphics, 50% Longer Print Head Life, 100% Longer Autocutter Life and an Even Sleeker Look - That's the TSP700II from Star Micronics.

Building on the industry success of the TSP700 from Star Micronics, with a print speed of 48 receipts per minute (250mm/sec), the TSP700II is the best single station printer you can expect. The TSP700II now features a double resolution mode to increase sharpness to any graphic! Eye catching graphics for company logos and/or coupons are a print away.

Its improved and sleeker design features a new top cover which extends to the edge of the printer making it more difficult for dust and liquids to penetrate and harm the printer. In addition to the extended cover, sound and vibration dampening channels within the printer help reduce printing noise and also add an extra layer of protection from moisture or dust when used in harsher environments. Now available with WebPRNT and Bluetooth technology, Star's TSP700II supports label printing and is

ideal for a variety of applications ranging from date labels on prepared foods at a local deli to price labels in a retail boutique.

Star's TSP700II BTi label printer is Apple MFi Certified for use with iPod Touch®, iPhone® and iPad®. With operating system support for iOS, Android, and Windows, the TSP700II BTi label printer can additionally print labels or data from a web browser-based application running on a mobile device wirelessly by configuring Star's WebPRNT Browser App. Once configured, simply pair your mobile device to the TSP700II BTi, and print from WebPRNT Browser.

The TSP700II ships complete with interface cover, wall mount kit, power switch cover, start-up roll of paper and a Driver CD. The TSP700II is ideal for high-volume retail establishments such as lottery, grocery stores, healthcare, banking, and restaurants. To prove Star's full confidence in this ultra reliable printer, Star is offering the best warranty in the industry: a complimentary three year Extend-A-Star, bumper to bumper warranty.

- Lightning Fast Speed (250mm/s)
- Ultra Highly Reliability
- Splash and Dust Proof Design
- Includes Installation CD with Full Driver Suite and Configuration Utility
- Small Footprint
- Swappable Serial, Parallel, USB, PoweredUSB and Ethernet
- Available Bluetooth, WebPRNT Connectivity and WebPRNT Browser (Bluetooth models enabled with black mark sensor for label printing)

Compatible with all Operating Systems supporting Bluetooth SPP
